Project Name

Here goes your awesome project description!

Table of contents

* General information

* Technologies

* Setup

* Features

* Status

* Inspiration

* Created by

* Development Log

* Maintenance Log

* File/Dependency Log

General information

Add more general information about project. What the purpose of the project is? Motivation?

Technologies/dependencies

* Tech 1 - version 1.0

* Tech 2 - version 2.0

* Tech 3 - version 3.0

Setup

Describe how to install / setup your local environment / add link to demo version.

Git Repository

https://github.com/join

Code Examples

*Show examples of usage:

*`put-your-code-here`

Features

List of features ready and TODOs for future development

* Awesome feature 1

* Awesome feature 2

* Awesome feature 3

To-do list:

* Wow improvement to be done 1

* Wow improvement to be done 2 …

Status

Project is: _in progress_, _finished_, _no longer continue_ and why?

Inspiration

Add here credits. Project inspired by..., based on...

Created/Developed by

Author/Team:

            Member 1.

            Member 2. …

Date:

      Start date (/ /)

      End date (/ /)

Development Log.

Development stages should be added here with dates and name of the author.

- [work done /04-Sep-2019 /Maxwell (Web Dev)]

- [Work done /05-Sep-2019 /Nanle Luke (Web Dev)]

Maintenance Log.

Maintenance ops should be added here with dates and the name of the author.

- [update1 /04-Sep-2019 /Maxwell (Web Dev)]

- [update2 /05-Sep-2019 /Nanle Luke (Web Dev)]

Resource/Dependency Log.

Record Updates/addition and Removal of resource and dependencies on the project.

- [Action/Resource-Dependency /04-Sep-2019 /Maxwell (Web Dev)]

- [Removal/Bootstrap 4.4.1 /05-Sep-2019 /Nanle Luke (Web Dev)]
